**MEMORANDUM ON THE OBJECTS OF THE NATIONAL HEALTH
AMENDMENT BILL, 2008**

1. PURPOSE OF BILL

The purpose of the Bill is to introduce a new Chapter in the National Health Act, 2003 (Act No. 61 of 2003) (the Act), in order to provide for a framework for health pricing.

2. CLAUSE-BY-CLAUSE ANALYSIS OF BILL

2.1 Clause 1 of the Bill amends the Table of Contents, to include Chapter 10A.

2.2 Clause 2 of the Bill seeks to introduce Chapter 10A in the Act, consisting of the following new proposed sections:

2.2.1 Section 89A

This section seeks to insert definitions of certain words used in Chapter 10A.

2.2.2 Section 89B

Section 89B makes provision for the object of the Chapter, which is to provide for a framework to enable health care providers, health establishments and medical schemes to negotiate and bargain on prices.

2.2.3 Section 89C

This section provides for the appointment of the Facilitator by the Minister from nominations by interested persons. The Facilitator must be a person who is experienced in dispute resolution. The section further provides for the functions of the Facilitator. The functions include coordinating collective bargaining by stakeholders, recording and submitting to the Minister the agreements reached on prices, assisting the parties during the negotiation and bargaining process, ensuring that negotiation and bargaining are conducted in a transparent and fair manner and confirming to the Minister that such negotiation and bargaining were indeed conducted in a transparent and fair manner.

2.2.4 Section 89D

This section proposes that the Director-General must designate staff of the Department to serve as the Secretariat of the Facilitator and that the Facilitator's remuneration must be determined by the Minister in consultation with the Minister of Finance.

2.2.5 Section 89E

This section deals with conflict of interest and proposes that the Facilitator should make a declaration to the Minister in respect of any interest that may constitute a conflict of interest in respect of his or her functions.

2.2.6 Section 89F

This section provides for negotiation and bargaining on prices. Parties may bargain collectively as organisations or associations or individually as individual entities. The section proposes that bargaining must start after the publication by the Department of the reference price lists and that these lists must serve as a price reference for the parties during the bargaining process. The section further proposes that if parties have reached agreement on prices, health care providers and health establishments may not charge prices in excess of those agreed upon.

2.2.7 Section 89G

This section provides for an eventuality where the parties fail to agree on prices, in which instance, if the services rendered relate to

prescribed minimum benefits, health care providers and health establishments may not charge prices in excess of those appearing on the reference price lists. This requirement also extends to patients who are not members of medical schemes.

2.2.8 Section 89H

Section 89H provides that any party to the dispute or the Facilitator may refer a dispute arising from the bargaining process to the Minister. The Minister must appoint an arbitrator agreeable to both parties to resolve the dispute. If the parties cannot agree on the arbitrator, the Minister may appoint one after consultation with the Minister for Justice and Constitutional Development.

2.2.9 Section 89I

This section provides for limitation of liability for the Facilitator, any assistant facilitator and the secretariat for acts performed in good faith in the performance of their functions.

2.2.10 Section 89J

This section seeks to exempt medicines from the provisions of the new Chapter because the prices of medicines are already regulated in terms of other legislation.

- 2.3** Clause 2 seeks to amend section 90(1)(v) of the Act by omitting the qualification that preference price lists are not mandatory.

3. CONSULTATION

The Bill resulted from a consultative process between the National Department and the provinces. The Social Sector Cluster was also consulted.

4. FINANCIAL IMPLICATIONS

The financial implications have been estimated and the necessary budget will be allocated.

5. PARLIAMENTARY PROCEDURE

- 5.1** The State Law Advisers and the Department of Health are of the opinion that this Bill must be dealt with in accordance with the procedure prescribed by section 76(1) or (2) of the Constitution since it falls within a functional area listed in Schedule 4 to the Constitution, namely “Health services”.
- 5.2** The State Law Advisers are of the opinion that it is not necessary to refer this Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Act, 2003 (Act No. 41 of 2003), since it does not contain provisions pertaining to customary law or customs of traditional communities.
